

## 1. Identification

**Product identifier**                                 **CIMPERIAL® 10-1052**  
METALWORKING FLUID

**Other means of identification**

**SDS number**   Not applicable

**Recommended use**                                 METALWORKING FLUID

**Recommended restrictions**                     None known.

**Manufacturer/Importer/Supplier/Distributor information**

**Manufacturer**

**Company name**                                 CIMCOOL® Industrial Products LLC  
3000 Disney Street  
Cincinnati, Ohio 45209

**Telephone (General Information)**             513-458-8100

**Emergency telephone number**                 1-800-424-9300 (CHEMTREC)

**Emergency telephone number (outside USA)**   1-703-527-3887 (CHEMTREC)

## 2. Hazard(s) identification

**Physical hazards**                                 Not classified.

**Health hazards**                                     Skin corrosion/irritation                                 Category 2  
Serious eye damage/eye irritation                     Category 2  
Sensitization, skin   Category 1

**Environmental hazards**                         Not classified.

**OSHA defined hazards**                         Not classified.

### Label elements

**Signal word**   Warning

**Hazard statement**                                 Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation.

### Precautionary statement

**Prevention**   Avoid breathing mist or vapor. Wash thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace. Wear eye protection/face protection. Wear protective gloves.

**Response**   If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse.

**Storage**   Store away from incompatible materials.

**Disposal**   Dispose of contents/container in accordance with local/regional/national/international regulations.

**Hazard(s) not otherwise classified (HNOC)**         None known.

**Supplemental information**                     None.

### 3. Composition/information on ingredients

#### Mixtures

| Chemical name  | Common name and synonyms | CAS number  | %       |
|--|--------------------------|-------------|---------|
| SEVERELY-HYDROTREATED<br>NAPHTHENIC PETROLEUM<br>DISTILLATES |                          | 64742-52-5  | 30 - 60 |
| 2-(2-AMINOETHOXY)ETHANOL                                     |                          | 929-06-6    | 5 - 10  |
| TRIETHANOLAMINE  |                          | 102-71-6    | 3 - 7   |
| ALCOHOLS, ETHOXYLATED  |                          | 157627-86-6 | 1 - 5   |
| ETHOXYLATED AMINE  |                          | 218141-23-2 | 1 - 5   |
| MONOISOPROPANOLAMINE   |                          | 78-96-6     | 1 - 5   |
| 2-METHYL-4-ISOTHIAZOLIN-3-ON<br>E                            |                          | 2682-20-4   | 0.1 - 1 |
| Other components below reportable levels                     |                          |             | 15 - 40 |

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

### 4. First-aid measures

|   |  |
|---|--|
| <b>Inhalation</b>   | Under normal conditions of intended use, this material is not expected to be an inhalation hazard. Call a POISON CENTER or doctor/physician if you feel unwell.  |
| <b>Skin contact</b>   | Rinse with water. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.  |
| <b>Eye contact</b>  | Rinse with water. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.   |
| <b>Ingestion</b>  | Rinse mouth. Do not give liquids. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Call a POISON CENTER or doctor/physician if you feel unwell. |
| <b>Most important symptoms/effects, acute and delayed</b>                     | Direct contact with eyes may cause temporary irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause an allergic skin reaction.                |
| <b>Indication of immediate medical attention and special treatment needed</b> | Provide general supportive measures and treat symptomatically. Symptoms may be delayed.  |
| <b>General information</b>  | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. If exposed or concerned: Get medical advice/attention.                                      |

### 5. Fire-fighting measures

|  |   |
|--|---|
| <b>Suitable extinguishing media</b>                                  | Foam. Dry chemical powder. Carbon dioxide (CO <sub>2</sub> ). Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| <b>Unsuitable extinguishing media</b>                                | Do not use water jet as an extinguisher, as this will spread the fire.  |
| <b>Specific hazards arising from the chemical</b>                    | During fire, gases hazardous to health may be formed.   |
| <b>Special protective equipment and precautions for firefighters</b> | Wear suitable protective equipment.   |
| <b>Fire fighting equipment/instructions</b>                          | Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk.              |
| <b>Specific methods</b>  | Use standard firefighting procedures and consider the hazards of other involved materials. In the event of fire and/or explosion do not breathe fumes.                |
| <b>General fire hazards</b>  | No unusual fire or explosion hazards noted.   |

### 6. Accidental release measures

|  |  |
|--|--|
| <b>Personal precautions, protective equipment and emergency procedures</b> | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS. |
|--|--|

**Methods and materials for containment and cleaning up**

Local authorities should be advised if significant spillages cannot be contained. This product is miscible in water. Prevent entry into waterways, sewer, basements or confined areas. Clean up in accordance with all applicable regulations.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

**Environmental precautions**

Contact local authorities in case of spillage to drain/aquatic environment. Avoid discharge into drains, water courses or onto the ground. Use appropriate containment to avoid environmental contamination.

**7. Handling and storage**

**Precautions for safe handling**

Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. Do not get in eyes, on skin, or on clothing. Avoid breathing mist or vapor. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

**Conditions for safe storage, including any incompatibilities**

Store in original tightly closed container. Do not allow material to freeze. Store away from incompatible materials (see Section 10 of the SDS). If frozen, product may separate. Thaw completely at room temperature and stir thoroughly prior to use.

**8. Exposure controls/personal protection**

**Occupational exposure limits**

**U.S. - OSHA**

|   | Type | Value   |
|---|------|---------|
| SEVERELY-HYDROTREATED NAPHTHENIC PETROLEUM DISTILLATES (CAS 64742-52-5) | PEL  | 5 mg/m3 |

**ACGIH**

|   | Type | Value   |
|---|------|---------|
| SEVERELY-HYDROTREATED NAPHTHENIC PETROLEUM DISTILLATES (CAS 64742-52-5) | TWA  | 5 mg/m3 |

**US. ACGIH Threshold Limit Values**

|                                | Type | Value   |
|--------------------------------|------|---------|
| TRIETHANOLAMINE (CAS 102-71-6) | TWA  | 5 mg/m3 |

**Appropriate engineering controls**

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.

**Individual protection measures, such as personal protective equipment**

**Eye/face protection**

Wear safety glasses with side shields (or goggles). Do not get in eyes. Eye wash fountain is recommended.

**Skin protection**

**Hand protection**

Use protective gloves made of: Nitrile.

**Other**

Wear suitable protective clothing.

**Respiratory protection**

In case of insufficient ventilation, wear suitable respiratory equipment.

**Thermal hazards**

Wear appropriate thermal protective clothing, when necessary.

**General hygiene considerations**

When using, do not eat, drink or smoke. Do not get in eyes, on skin, on clothing. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

## 9. Physical and chemical properties

|   |                         |
|---|-------------------------|
| <b>Appearance</b>                                   | CLEAR                   |
| <b>Physical state</b>                               | Liquid.                 |
| <b>Form</b>   | Liquid.                 |
| <b>Color</b>  | Not available.          |
| <b>Odor</b>   | CHEMICAL                |
| <b>Odor threshold</b>                               | Not available.          |
| <b>pH</b>   | Not Applicable          |
| <b>Melting point/freezing point</b>                 | 7 °F (-13.9 °C)         |
| <b>Initial boiling point and boiling range</b>      | > 212 °F (> 100 °C)     |
| <b>Flash point</b>                                  | Not Applicable          |
| <b>Evaporation rate</b>                             | Like water when diluted |
| <b>Flammability (solid, gas)</b>                    | Not applicable.         |
| <b>Upper/lower flammability or explosive limits</b> |                         |
| <b>Flammability limit - lower (%)</b>               | Not available.          |
| <b>Flammability limit - upper (%)</b>               | Not available.          |
| <b>Explosive limit - lower (%)</b>                  | Not available.          |
| <b>Explosive limit - upper (%)</b>                  | Not available.          |
| <b>Vapor pressure</b>                               | Not available.          |
| <b>Vapor density</b>                                | Not available.          |
| <b>Relative density</b>                             | Not available.          |
| <b>Solubility(ies)</b>                              | 100 % Water Miscible    |
| <b>Partition coefficient (n-octanol/water)</b>      | Not available.          |
| <b>Auto-ignition temperature</b>                    | Not available.          |
| <b>Decomposition temperature</b>                    | Not available.          |
| <b>Viscosity</b>                                    | Not available.          |
| <b>Other information</b>                            |                         |
| <b>Explosive properties</b>                         | Not explosive.          |
| <b>Oxidizing properties</b>                         | Not oxidizing.          |
| <b>pH in aqueous solution</b>                       | 8.9 @ 5%                |
| <b>Specific gravity</b>                             | 1.005                   |
| <b>VOC ASTM D2369</b>                               | 15 %                    |

## 10. Stability and reactivity

|   |  |
|---|--|
| <b>Reactivity</b>                         | The product is stable and non-reactive under normal conditions of use, storage and transport.                              |
| <b>Chemical stability</b>                 | Material is stable under normal conditions.  |
| <b>Possibility of hazardous reactions</b> | Hazardous polymerization does not occur.   |
| <b>Conditions to avoid</b>                | Heat, flames and sparks. Contact with incompatible materials.  |
| <b>Incompatible materials</b>             | Acids. Oxidizing agents. Do not add sodium nitrite or other nitrosating agents which may form cancer causing nitrosamines. |
| <b>Hazardous decomposition products</b>   | Smoke, fumes, oxides of nitrogen, and oxides of carbon   |

## 11. Toxicological information

### Information on likely routes of exposure

|                     |  |
|---------------------|--|
| <b>Inhalation</b>   | Health injuries are not known or expected under normal use.  |
| <b>Skin contact</b> | Causes skin irritation. May cause an allergic skin reaction. |

**Eye contact** Causes serious eye irritation.

**Ingestion** Expected to be a low ingestion hazard.

**Symptoms related to the physical, chemical and toxicological characteristics** Direct contact with eyes may cause temporary irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause an allergic skin reaction.

**Information on toxicological effects**

**Acute toxicity** May cause an allergic skin reaction.

| <b>Components</b>                                 | <b>Species</b> | <b>Test Results</b>              |
|---|----------------|----------------------------------|
| 2-(2-AMINOETHOXY)ETHANOL (CAS 929-06-6)           |                |                                  |
| <b>Acute</b>                                      |                |                                  |

| <b>Aquatic</b>                                    |         |  |
| Fish  | LC50    | Rainbow trout,donaldson trout<br>(Oncorhynchus mykiss) 0.05 - 0.089 mg/l, 96 hours |
| ALCOHOLS, ETHOXYLATED (CAS 157627-86-6)           |         |  |
| <b>Aquatic</b>                                    |         |  |
| <i>Acute</i>                                      |         |  |
| Crustacea   | EC50    | Daphnia 0.1 - 1 mg/l, 48 hours   |
| Fish  | LC50    | Zebra danio (Danio rerio) 1 - 10 mg/l, 96 hours                                    |

\* Estimates for product may be based on additional component data not shown.

**Persistence and degradability** No data is available on the degradability of this product.

**Bioaccumulative potential**

**Mobility in soil** This product is miscible in water.

**Other adverse effects** No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

### 13. Disposal considerations

**Disposal instructions** Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

**Local disposal regulations** Dispose in accordance with all applicable regulations.

**Hazardous waste code** The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

**Waste from residues / unused products** Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

**Contaminated packaging** Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

### 14. Transport information

**DOT**  
Not regulated as dangerous goods.

**IATA**  
Not regulated as dangerous goods.

**IMDG**  
Not regulated as dangerous goods.

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code** Not established.

### 15. Regulatory information

**US federal regulations** This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

**TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)**

2-METHYL-4-ISOTHIAZOLIN-3-ONE (CAS 2682-20-4) 1.0 % One-Time Export Notification only.

**CERCLA Hazardous Substance List (40 CFR 302.4)**

Not listed.

**SARA 304 Emergency release notification**

Not regulated.

**US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)**

Not regulated.

**Superfund Amendments and Reauthorization Act of 1986 (SARA)**

**Hazard categories** Immediate Hazard - Yes  
 Delayed Hazard - No  
 Fire Hazard - No  
 Pressure Hazard - No  
 Reactivity Hazard - No

**SARA 302 Extremely hazardous substance**

Not listed.

**SARA 311/312 Hazardous chemical** Yes

**SARA 313 (TRI reporting)**

| Chemical name                    | CAS number | % by wt. |
|----------------------------------|------------|----------|
| 3-iodo-2-propynyl butylcarbamate | 55406-53-6 | 0.1 - 1  |

**Other federal regulations****Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List**

Not regulated.

**Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)**

Not regulated.

**Safe Drinking Water Act (SDWA)** Not regulated.

**FEMA Priority Substances Respiratory Health and Safety in the Flavor Manufacturing Workplace**

MONOISOPROPANOLAMINE (CAS 78-96-6) Low priority

**Food and Drug Administration (FDA)** Not regulated.

**US state regulations****US. California Controlled Substances. CA Department of Justice (California Health and Safety Code Section 11100)**

Not listed.

**US. California. Candidate Chemicals List. Safer Consumer Products Regulations (Cal. Code Regs, tit. 22, 69502.3, subd. (a))**

SEVERELY-HYDROTREATED NAPHTHENIC PETROLEUM DISTILLATES (CAS 64742-52-5)

3-iodo-2-propynyl butylcarbamate (CAS 55406-53-6)

**California South Coast Air Quality Management District (SCAQMD) Rule 1144 (VOC Emissions)**

This product is subject to SCAQMD Rule 1144; it is compliant and may be sold and used in the SCAQMD. The VOC content of the product is 138 g/L, measured by ASTM Method E-1868-10.

This product has a specified use dilution VOC limit of 75 g/L, the maximum dilution concentration is 54 % to maintain compliance.

**US. California Proposition 65**

WARNING: This product contains a chemical known to the State of California to cause cancer.

**US - California Proposition 65 - CRT: Listed date/Carcinogenic substance**

NITRILOTRIACETIC ACID (CAS 139-13-9)

Listed: January 1, 1988
