

## PRODUCTION CLEANERS

### APPLICATIONS

**CIMCLEAN® BC60** is a high detergency corrosion inhibiting burnishing compound designed for use in the vibratory burnishing of steel or aluminum parts. It is suitable for use with steel or ceramic media. This product will not stain or corrode aluminum. It will protect steel media and parts from rusting.

### FEATURES & BENEFITS

- **CIMCLEAN® BC60** provides excellent detergency and fine dispersion characteristics. The product is mild to skin and is readily waste-treatable. The pH of working solutions is approximately 9.7.
- **CIMCLEAN® BC60** is normally used at concentrations of 1% to 5% by volume depending on the nature of the operation, the high end of the range being used when subsequent rusting of parts is a concern.

### TYPICAL PHYSICAL AND CHEMICAL PROPERTIES

**Appearance:** Undyed  
**Odor:** Mild, inoffensive  
**Specific Gravity:** 1.024  
**Density (pounds per gallon):** 8.55  
**pH, concentrate:** 10.3  
**pH, use dilutions:** 9.7  
**Use dilution:** 1% to 5% by volume  
**Packaging:** Available in 5-gal. pails, 55-gallon drums and bulk containers

Add no other substances to the concentrate or mix unless approved by CIMCOOL® Technical Services. For additional information concerning this CIMCLEAN® product, refer to its OSHA MSDS or contact CIMCOOL® Technical Services at 1-513-458-8199.
