PRODUCTION CLEANERS

APPLICATIONS

CIMCLEAN FC35 is a heavy duty liquid industrial cleaning compound formulated especially for use in mechanical floor scrubbers. This product effectively removes grease, oil and shop dirt from concrete, wood block and terrazzo floors.

FEATURES & BENEFITS

CIMCLEAN FC35 is a buffered alkaline material containing no free caustic. This controlled foam product will not clog scrubbers and is chemically balanced to prevent the corrosion of aluminum scrubber parts. **CIMCLEAN FC35** is fast drying and will not leave floors slippery.

CIMCLEAN FC35 is a highly concentrated detergent and can be used in many routine cleaning operations at concentrations of less than 1% by volume. For heavily soiled floors, concentrations 2% to 3% are recommended. **CIMCLEAN FC35** can also be used in mop bucket operations at concentrations up to 5%.

While intended primarily for use in floor scrubbing machines, **CIMCLEAN FC35** can be used as a general purpose cleaner for walls and equipment. It can be used manually or with spray or steam cleaning equipment.

TYPICAL PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Clear liquid
Odor: Mild
Specific gravity: 1.055
Density: 8.79 Pounds per gallon
pH: 13.1 (Concentrate)
Foam Character: Low-foaming
Use Dilution: 1-5%
Packaging: Available in 5 gal. pails, 55 gal. drums and bulk containers

Add no other substances to the concentrate or mix unless approved by CIMCOOL® Technical Services. For additional information concerning **CIMCLEAN® FC35** refer to its OSHA MSDS or contact CIMCOOL® Technical Services at 1-513-841-8133
