

ReadyFill IBCs are available from SpaceKraft with a built-in-valve. The valve is attached and an integral part of the new form-fit liner.

NO-SPILL built-in valve

ReadyFill offers all of the benefits of a disposable package with all of the material handling features of a rigid IBC.

INSIDE THE PACKAGE:

INNER LINER

- designed for maximum strength and flexibility.
- secured at the corners and attached at the top.
- facilitates dispensing

4-INCH FILL CAP

- large screw cap facilitates easy filling
- lock-in-place cover provides tamper evident feature

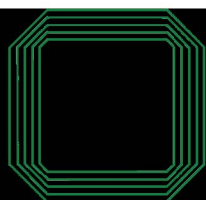

1. Remove the seal
2. Remove the outer cap
3. Attach the male camlock
4. Attach the handle and rotate

Other ReadyFill Package Features

- new, heat-treated, 40x48 wood pallet
- form-fit liner, reduces product heel
- no requirement for DOT 40 CFR §261.7
- ideal for export, industrial and food applications
- contains residue and eliminates waste water
- avoid "**RCRA Empty**": triple-rinsed and drip-dry
