Fluids In CIMTECH 320 Product Line Offer Significant Advantages In Machine Performance And Product Quality

Cincinnati, Ohio—2013—CIMCOOL, a long-time industry leader in metalworking fluid technology, developed its CIMTECH® products to improve both machining and grinding applications without the use of mineral oil. All products in the CIMTECH 320 line are clean, low-foaming, synthetic metalworking fluids appropriate for a variety of demanding applications.

CIMTECH® 320 metalworking fluid is recommended for heavy-duty machining and grinding operations including heavy-duty operations like form tapping aluminum, and grinding operations including creep feed grinding, on non-ferrous or ferrous metals.

CIMTECH® 320z is a low-pH synthetic fluid concentrate that has become the standard metalworking fluid for many aerospace manufacturers and is Boeing-approved. It is recommended for heavy-duty machining and grinding operations on non-ferrous or ferrous metals including wrought aluminum alloys, cast aluminum alloys, cast iron, nodular iron, carbon steels, stainless steels, titanium and other exotic alloys.

CIMTECH® 320-HFP with FACT is premium synthetic fluid developed for heavy-duty machining and grinding of aluminum alloys and ferrous metals. It is recommended for High Fluid Pressure and High Volume Flow applications where minimization of foam is critical for part quality and machine operations.

CIMTECH products offer excellent rancidity control, extending the life of the fluid and minimizing the need for additives; excellent lubricity, providing long tool life and outstanding surface finish; and excellent cleanliness, rejecting tramp oil to keep product clean which ultimately extends sump life.

All CIMCOOL products are backed with over 70 years of product performance. For additional information on this and other CIMCOOL products, please visit our website at www.CIMCOOL.com, and click on the MSDS and Product Information menu. The company is certified ISO 14001, ISO 9001. Pink Trade Dress is a registered trademark of Milacron LLC
