# CIMCOOL® Metalworking Fluids Engineered For High-Precision Aerospace Manufacturing

**Cincinnati, Ohio—2013**—For decades, aerospace manufacturers from around the world have relied on CIMCOOL metalworking fluids in applications where there is no room for error. CIMCOOL Fluid Technology, a longtime leader in metalworking fluid technology, offers products specially-formulated for high-precision, difficult-to-machine alloys common in aircraft of all types.

Like all CIMCOOL products, these fluids and cleaners meet stringent quality, health and safety requirements and set new standards for industry performance. CIMCOOL products provide four to five times longer sump life; up to 300% improved tool life; an increase in productivity; excellent rancidity control; greatly reduced concentrate usage; and operator-friendly use. CIMCOOL also backs its innovative fluids with exemplary customer service, including a no-hassle product performance guarantee, free trial assurance, and 24/7 Internet assistance.

Select aerospace products include:

**CIMTECH® 310** is recommended for machining and grinding operations, including creep feeding grinding, on non-ferrous or ferrous metals.

**CIMTECH® 320Z** is appropriate for heavy-duty machining and grinding operations on non-ferrous or ferrous metals.

**CIMTECH® 46C** is designed specifically for carbide grinding applications, and will maintain very low dissolved cobalt levels if maintained properly.

**CIMSTAR® QUALSTAR** is recommended for general-purpose machining and grinding of ferrous metals, and can also be used in some applications on non-ferrous metals.

All CIMCOOL products are backed with over 70 years of product performance.
