CIMCOOL® Metalworking Fluids Meet Demanding Needs Of Automotive Manufacturing

Cincinnati, Ohio—2012—High-capacity, high-volume automotive plants turn to CIMCOOL Fluid Technology for the most advanced fluids and cleaners designed for stamping, cleaning and grinding applications. Like all CIMCOOL fluids, these meet stringent quality, health and safety requirements and set new standards for industry performance.

CIMCOOL products provide four to five times longer sump life; up to 300% improved tool life; an increase in productivity; excellent rancidity control; greatly reduced concentrate usage; and operator-friendly use. CIMCOOL also backs its innovative fluids with exemplary customer service, including a no-hassle product performance guarantee, free trial assurance, and 24/7 Internet assistance.

Among the fluids especially favored by automotive manufacturers:

CIMTECH® 410C is recommended for machining and grinding operations on ferrous metals. It is an excellent choice for central system applications.

CIMSTAR® 60 may be used as a general-purpose fluid for machining and grinding aluminum, iron and steel.

CIMPERIAL® 1070 is a general purpose fluid recommended for machining and grinding aluminum, iron and steel.

For more information on these and other CIMCOOL products, please visit our website at www.CIMCOOL.com, and click on the MSDS and Product Information menu. CIMCOOL Fluid Technology is a global manufacturer of metalworking fluids. The company is certified ISO 14001, ISO 9001. Pink Trade Dress is a registered trademark of Milacron LLC
