## ***CIMTECH 310<sup>®</sup> Synthetic Metalworking Fluid Meets The Strict Requirements Of Automotive And Aerospace Manufacturing***

**Cincinnati, Ohio—2011—**CIMTECH 310<sup>®</sup>, a low-pH synthetic fluid designed to meet the stringent requirements of the automotive and aerospace industries, has become the standard metalworking fluid for many manufacturers. The product, manufactured by global supplier Cimcool Fluid Technology, passes all bi-metallic and aluminum (7075) “sandwich” corrosion tests.

**CIMTECH 310<sup>®</sup>** is recommended for machining and grinding operations, including creep feed grinding on non-ferrous or ferrous metals. Designed for moderate- to heavy-duty operations, **CIMTECH 310<sup>®</sup>** is low-foaming and provides excellent rancidity control, extending the life of the fluid and minimizing the need for additives. In addition, **CIMTECH 310<sup>®</sup>** offers unmatched lubricity providing long tool life and outstanding surface finish; it is transparent, offering the machine operator uninhibited part visibility; and is non-irritating to the skin.

All CIMCOOL products are backed by the company’s “no-hassle” performance guarantee and free trial assurance. For additional information on this and other CIMCOOL products, please visit our website at [www.CIMCOOL.com](http://www.CIMCOOL.com), and click on the MSDS and Product Information menu. CIMCOOL Fluid Technology is a global manufacturer of metalworking fluids. The company is certified ISO 14001, ISO 9001.

CIMCOOL, headquartered in Cincinnati Ohio, is a world supplier in metalworking fluid technology.
