MILFORM and MILDRAW Are Proven Stamping and Drawing Fluids That Satisfy Customer Needs And Set Industry Standards

Cincinnati, Ohio—2011— With products that boast results including up to 300% improved tool life; an increase in productivity; excellent rancidity control; greatly reduced concentrate usage; and operator-friendly use, **CIMCOOL Fluid Technology** offers some of the most technologically-advanced fluids for use in industrial operations. Among them are the **MILFORM®** and **MILDRAW®** product lines, which include a wide range of proven stamping and drawing fluids offering proven lubricity, superior cooling and excellent corrosion control while making part cleaning easy and efficient.

MILFORM and MILDRAW water-soluble products are available for metalforming applications ranging from light-duty stamping to heavy-duty drawing, and are appropriate for both ferrous and non-ferrous metals with exceptional results in synthetic, soluble oil and straight oil applications. Clean-operating semi-synthetics economically replace straight oils in heavy-duty operations, and versatile soluble oils offer excellent corrosion control in a variety of applications. The line also includes evaporative lubricants, low-viscosity oils and fluids specially designed for extreme pressure applications.

CIMCOOL is a leading global supplier of metalworking fluids that meet stringent performance, health and safety requirements for machining, grinding, stamping, metal-forming, cleaning, and many specialty applications that both satisfy customers' needs and set the standards for industry performance. All CIMCOOL products are backed by the company's "no-hassle" performance guarantee and free trial assurance. For additional information on this and other CIMCOOL products, please visit our website at www.CIMCOOL.com, and click on the MSDS and Product Information menu. CIMCOOL Fluid Technology is a global manufacturer of metalworking fluids. The company is certified ISO 14001, ISO 9001.

CIMCOOL, headquartered in Cincinnati Ohio, is a world supplier in metalworking fluid technology.
