**MILACRON'S CIMCOOL global industrial fluids introduces CIMCLEAN® GREEN production cleaners designed to make shop floor and general purpose industrial cleaning quick and easy.**

**Cincinnati Ohio, April 2007** – MILACRON'S CIMCOOL global industrial fluids, a long time industry leader in metalworking fluids technology, has announced the release of its latest development – **CIMCLEAN® GREEN** production cleaners. This recent addition to the comprehensive line of CIMCOOL products is sure to revolutionize cleaning on shop floors and in harsh industrial environments.

Cost effective **CIMCLEAN® GREEN** production cleaners are designed to remove residue such as oil, grease, fat, soot, dirt and debris from floors, steps, walkways, desks, machinery, walls, countertops and other hard surfaces. **CIMCLEAN® GREEN** cleaning agents remove debris and deodorize industrial environments leaving behind a pleasant pine scent. The concentrated formula decreases the amount of cleaner necessary to sanitize the work environment creating significant cost savings.

**CIMCLEAN® GREEN** is available in **CIMCLEAN® GREEN GPC** - a concentrated maintenance cleaner. This water-based, alkaline floor cleaner is perfect for use with automatic floor scrubbers. **CIMCLEAN® GREEN GPC** removes residue such as dirt and oil from concrete, linoleum or ceramic flooring in shop floors and manufacturing facilities. **CIMCLEAN® GREEN GPC** is flexible enough to use with either hard or soft water. Controlled foaming provides enhanced detergency and emulsification in floor scrubbing and mopping.

**CIMCLEAN® GREEN** is also available in **CIMCLEAN® GP-SW84** - an industrial strength, spray-and-wipe, water soluble general-purpose cleaner. Ideal for wipe down applications, **CIMCLEAN® GP-SW84** does not need to be diluted and is designed to remove grease, oil and dirt from machinery, floors, walls and other hard surfaces such as desks and countertops. Applicable by floor scrubbers, spray bottles, mopping and brushing methods, **CIMCLEAN® GP-SW84** is safe for use on most plastics and painted surfaces.

Neither **CIMCLEAN® GP-SW84** or **CIMCLEAN® GREEN GPC** contain hazardous solvents. Both products are backed by the CIMCOOL "No-hassle" performance guarantee and free trial assurance.

Milacron, Inc. is a global leader in the design, manufacture and service of metalworking fluid technology. It is a leading supplier of fluid services, which support the metalworking industry, to manage metalworking fluids and reduce costs. It is certified ISO 14001, ISO 9001, ISO 9002 and ANSI/ASQ Q9001.

For additional information on these and other CIMCOOL products, please visit our website at [www.CIMCOOL.com](http://www.CIMCOOL.com), and click on the MSDS and Product Information menu.

CIMCOOL, headquartered in Cincinnati Ohio is the world leader in metalworking fluid technology.
